WEBSITE DESIGNING

FIGMA

- ▶ Design principles
- ▶ Interactive & functional prototypes

PHOTOSHOP

- ▶ Colours, shapes & typography
- ▶ Webpage layout & Image optimization

FRONT-END DEVELOPMENT

HTML5 & CSS3

- ▶ Creating multipage websites with responsiveness and animation
- ▶ Working with media queries
- ▶ CSS style rule with selectors
- ▶ Working with tables, working with lists
- ▶ Inserting images and Image attributes
- ▶ Working with text elements

REACT JS

- ▶ Creating a streaming website
- ▶ Hooks, Routing and Axios
- ▶ Fragments, Material UI
- ▶ Template rendering and React plugins
- ▶ Props and State
- ▶ Function vs Class components

(OR)

ANGULAR JS

- ▶ Functions of Web Development
- ▶ Typescript Features
- ▶ Understanding Component
- ▶ Data Binding & Forms
- ▶ Dependency Injection
- ▶ Angular Directives
- ▶ Pipes, Routing & Navigation

JAVASCRIPT & JQUERY

- ▶ Javascript Library
- ▶ CRUD Operation
- ▶ Javascript ES6 concept
- ▶ Javascript AJAX
- ▶ Js DOM
- ▶ Functions, Array and Methods
- ▶ Jquery animaton library

BOOTSTRAP

- ▶ Creating a mobile first website
- ▶ Working with layout, components and utilities
- ▶ Website framework using Bootstrap

CONTENT MANAGEMENT SYSTEM

WORDPRESS

- ▶ Working with wordpress templates
- ▶ Creating wordpress website
- ▶ Installing Plugins
- ▶ SEO customizations

BACK-END DEVELOPMENT

NODE JS

- ▶ Node modules system
- ▶ Working with asynchronous programming
- ▶ Creating an express framework using NodeJS
- ▶ REST APIs and GraphQL
- ▶ Working with Socket

MONGO DB

- ▶ Fundamentals of MongoDB
- ▶ Using MongoDB Shell
- ▶ MongoDB CRUD Operations
- ▶ Indexing, Aggregation, Replication
- ▶ MongoDB Backup Methods
- ▶ MongoDB Cloud Services

PYTHON

- ▶ Python installation and syntax
- ▶ Operator and looping statements
- ▶ String manipulation and oops concept
- ▶ Exceptions handling and File handling
- ▶ GUI using python (tkinter)
- ▶ MySQL connectivity and queries

DJANGO

- ▶ Django essentials
- ▶ Creating an entire project using Django
- ▶ Manual testing for the entire project
- ▶ Creating applications in Django

CLOUD SERVICES

AWS

- ▶ Overview of Amazon web services and Cloud concepts
- ▶ AWS Global infrastructure overview
- ▶ VPC, Networking and Content delivery
- ▶ Serverless and Application services, Analytics and Cloud security
- ▶ AWS architecting
- ▶ Pricing and Support, Migration and Innovation
